

Andover Town Council

To **approve** the creation of a short questionnaire

Item
No.
17b

Produced for: Full Council

By: Town Clerk.

Date of Report: 11 October 2023

Background:

The Anti-Social Behaviour Working Group need to obtain data regarding incidents that have occurred around the parish in order to ascertain what types of incidents are going unreported to TVBC and the Police.

No proposals can be made for tackling the problem, if the extent of the problem is not known. Certain areas may be more likely to suffer from ASB, and others may have no occurrences. ASB may be linked to certain individuals or certain groups of people.

Gaining insight will help justify if solutions are required.

Care needs to be taken not to alarm the community, and not to create a sense of anxiety where the currently isn't one.

Proposal:

That the Town Clerk spends one morning with:

1. A representative of Yellow Brick Road Legacy Project
2. A Councillor experienced in using either Google Forms or Microsoft Forms

to create a consultation that can be publicised by outside organisations with data feeding directly back to ATC Officer.

Recommendations:

1. To **approve** the time for Officers work on an ASB data collection survey.
2. To **approve** that the survey includes questions asking young people what sort of facilities would appeal to them.
3. To **approve** that Officers work with Yellow Brick Road and 1 councillor.
4. To **approve** that the survey draft should be brought to Full council prior to going live.
