

# Andover Town Council

To consider cost, legalities and implications of a Project.

Item  
No.

**18**

**Produced for:** Full Council

**By:** Town Clerk.

**Date of Report:** 11 October 2023

## Background:

Members of the public have asked about applying for match funding for purchasing Defibrillators.

The Defibrillator Policy needs to be re-worked, (agenda item 13) but in the hope that this can be done, and organisations can apply to the Town Council for help in purchasing a defibrillator in the near future, then Community Training is important.

This is an opportunity to raise Council's profile and provide a service to the Community.

## Proposal:

To approve that Officers investigate:

1. Suppliers of Training, Availability and Costs. (hopefully free!)
2. Locations in Town that could be used for a "drop in" training event.
3. Costs hire of locations and refreshments.

It is thought this is half a day's office work.

## Recommendations:

To **approve** the time for Officers investigations and to report back to November meeting with findings.
