

Andover Town Council

To **note** works being undertaken at Barlows Lane.

Item
No.
7

Produced for: Allotments Committee

By: Town Clerk

Date of Report: 10 Apr 2024

Background:

To keep Councillors and tenants informed.

The following works are planned for April / May at Barlow's Lane.

- A. Another 1 ton delivery of Type 1 will be placed around the entrance gate area to fill in some dips and flatten the space. A small group of tenants have offered to accept the delivery, and to carry out the spreading of the material. The Council are very grateful for the assistance of the tenants involved. Councillors would ask that other tenants are patient and understanding while this is carried out as vehicular access will be temporarily affected. Pedestrian access will be maintained.
- B. Remedial work to the chain on the gates – the locksmith has been asked to move the chain and to add a handle to the outside of the slider to make it easier to move from outside the gates.
- C. Parking area to be tidied and lines painted to show how 4 cars can park.
