Rooting for Andover Chraitable Incorporated Organisation Charity Commission Number 1200827

The Polytunnel story told in pictures – thank you Andover Town Council and Nikki, your community officer, for all the help given to us in supporting our grant application. It's made such a difference and has been used by countless people during volunteer days, plant sales and our events which have attracted hundreds of people.

<p>Great news! Summer 2023 Rooting for Andover receives the grant of £1000 from Andover Town Council.</p>	A horizontal row of six identical crests for Andover Town Council. Each crest features a central shield with a red dragon and a blue bird, topped with a crown and surrounded by decorative elements. Below each crest, the text 'ANDOVER TOWN COUNCIL' is written in a small, black, sans-serif font.
<p>Work starts on the project. This is the thumbs up day! There had been a few challenges (politely put) along the way as we figured out how all the parts went together but it was all worth it.</p>	A man wearing a white t-shirt with a colorful floral pattern and black trousers stands in front of a partially constructed polytunnel. He is giving a thumbs-up gesture. The structure is made of metal arches and wooden frames, with a green mesh covering the sides. The ground is covered with mulch and some construction materials.
<p>Work on the staging underway and hundreds of plants, trays and potting stations are all ready to be placed on it.</p>	Two men are working on wooden staging inside a polytunnel. One man is wearing a high-visibility yellow jacket and the other is wearing a dark jacket. They are both focused on their work, with one man using a power drill. The staging is made of wooden planks and is being built on a concrete base. The interior of the polytunnel is visible, showing the metal arches and the green mesh covering.

All complete!

We have our first visitor from the Town Council – Cllr Luigi Gregori. All councillors and officers are always welcome

It's also a great place to look out and view our community events if the big black clouds appear!
(View from the tunnel)

The polytunnel is not only great for growing plants, it is also a fabulous place for people of all ages to huddle for a cuppa in the winter.

Our band of volunteers (just a few shown here in below freezing temperatures) range in ages from two to mid seventies.

Come along and join us!
