

Andover Town Council

Grant Funding Policy and Procedure

Introduction

Andover Town Council ('the Council') has powers to award grants to local organisations to support their activities¹. In doing so, the Council is aware of its responsibility for public funds and for the distribution of these funds to be properly managed.

Policy

Purpose

The Council recognises that local not-for-profit organisations deliver projects and events that benefit the Andover community. Examples are local community events and activities that meet local people's needs and help to enrich the cultural, social and environmental life in the area. The Council understands that, in many cases, local organisations have limited resources and rely on fund raising and donations to deliver activities. This funding helps to recognise the value of one-off community activities or purchases and enable them to take place.

The Council has powers to spend limited amounts for purposes where no other specific powers are granted. The spending must be for direct benefit in the Council's area or a part of it, must benefit all or some of the residents, and cannot benefit an individual.

What does this policy include?

The scope of this policy includes supporting a broad range of activities, projects and events such as an open day, raffle prizes, or equipment for a community workshop. Detailed eligibility requirements are set out below.

The Council welcomes applications from organisations which help meet two of the Council priorities²:

1. Help make Andover a welcoming, safe, and well cared for town
2. Engage with Andover community stakeholders to provide targeted support for residents and taxpayers.

The Council has adopted a tiered approach to considering applications for funding according to the value of the grant. This means the Council will need more assurance about the organisation applying and how it plans to spend the grant for larger grants than small ones. This approach is simple, straightforward and not unduly bureaucratic for smaller grants, while at the same time protects public funds.

The value of grants fall into three categories as follows:

- Small grants of up to £150, for example, ~~raffle~~ prizes.
- Medium grants between £151 and ~~£1,5002,000~~, for example, community events
- Large grants between ~~£1,5012,001~~ and ~~£35~~,000, for example, larger scale, one-off projects.

What are the Council's criteria?

For all grants, including small grants up to £150, the Council considers applications against the following criteria:

- [how the application meets the provisions of s137 of the Local Government Finance Act 1972.](#)
- meeting the Council's priorities as set out above
- the organisation applying is a charity, voluntary organisation, or not for profit organisation
- how the organisation complies with the Equalities Act 2010.
- how local people benefit from the grant-
- evidence of a bank account in the name of the organisation.

For medium grants between £151 and ~~£1,5002,000~~, in addition to the above, the Council also needs to see evidence of:

- the organisation's governing document, for example, a constitution, memorandum or articles of association;
- two signatories to the organisation's bank account;
- most recent approved accounts

For large grants between ~~£1,502,001~~ and ~~£35~~,000, in addition to the above, the Council also needs to see evidence of:

²[Current - Business plan - approved_FC_19.3.25.pdf](#)

- the last three months bank statements
- at least 3 unrelated members on its management or committee board

The Council's criteria are also set out in Table 1 below.
