01. The proposal, by virtue of its dominant size, scale, prominent location, and utilitarian design and appearance, would result in less than substantial harm to the heritage asset, which would appear as a harmful and incongruous structure within the street scene, which would be seen within the context of adjacent listed buildings and within the Andover Conservation Area. There are no public benefits identified to outweigh the harm caused by the development. The proposal is contrary to Policies E1 and E9 of the Test Valley Borough Revised Local Plan DPD.
