The tree appears to be maiden specimen and in good physiological condition. Enacting the proposed crown reduction work would see a significant loss of branch and leaf bearing material and also detract from the tree's natural form and visual amenity as a landscape feature. Collectively, the cuts would lead to significant exposure of heartwood (contrary to BS3998:2010 Tree Work - Recommendations) that would

						render the tree at greater risk to infection from pathogens that cause disease and increase the potential risk of early demise. The proposed works would have sufficient benefit for the reasons put forward and the application does not provide adequate justification that would allow for a decision of consent.

**Subject:** Test Valley Draft Local Plan 2040 (Regulation 18, Stage 2)

Dear Parish Council Chairman,

I am writing to inform you that on the 17th January, Test Valley Borough Council will be considering the first full draft of the Local Plan 2040 (Regulation 18, Stage 2). If approved, it will go on to public consultation next month. The agenda papers are available on the Council's website at [Test Valley Borough Council](https://www.testvalley.gov.uk).

The plan balances the requirements of development that will provide jobs and affordable, sustainable housing for residents, with the need to provide necessary supporting infrastructure, whilst taking care to protect the countryside, open spaces, local gaps and ecology. The local plan proposes revised settlement boundaries, housing numbers for the Borough and for those undertaking neighbourhood plans as well as giving different policy frameworks for communities to bring forward their own schemes.

It is proposed that the statutory public consultation will run for eight weeks beginning in February. All parish councils will receive more information about the Plan, ways to engage and details of how to respond closer to the start of the consultation. Please only comment during the statutory consultation period.

Kind regards,

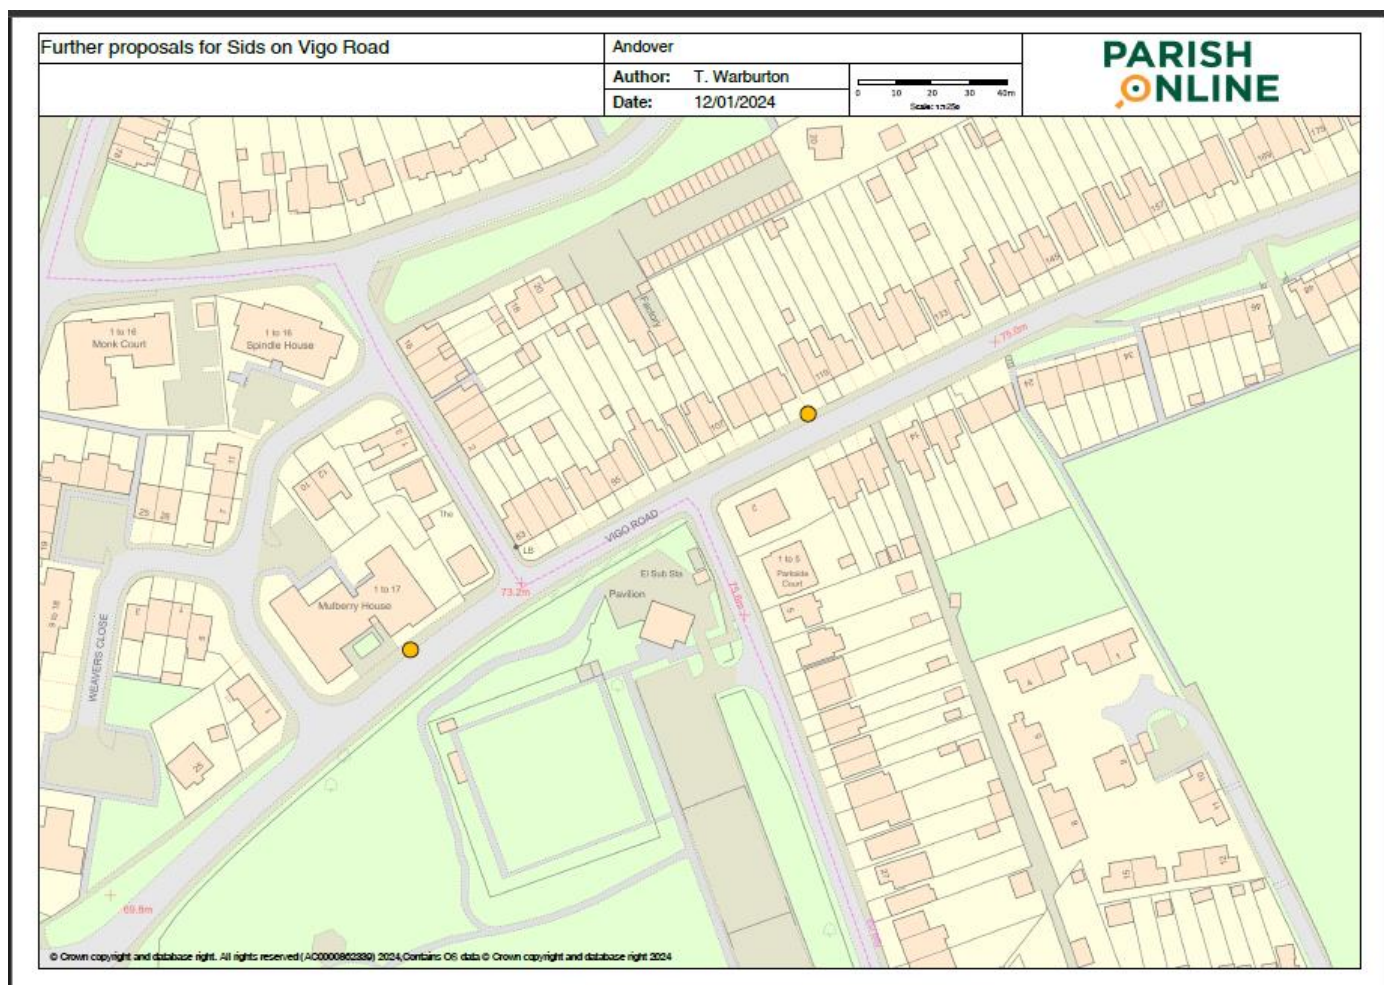

**Planning Policy Team**

## Appendix E: Further SID Placements on Vigo Road

# E

Above is a map showing the further recommendations from Simon on Vigo Road.

Councillors had previously requested further suggestions from him because the previous ones were at the wrong end of the road:

- Lamp column 6, outside number 115

Street View link - <https://maps.app.goo.gl/EF3VFcgNUhFijT1k9> - lamp column on right hand side of picture

Except for parked vehicles, which is an issue for most of the length of this road, there is fairly good visibility to both the west and east.

The resident at number 115 said they had asked in the past if HCC could move the lamp column slightly to allow more parking on their drive but I can't see how they could fit more than one car on there, but thought I would mention it.

- Waiting restriction sign post, west of number 55, opposite lamp column 3 (in between junctions of St John's Road and Silkweavers Road)

Street view link - <https://maps.app.goo.gl/T4LLzcwZzPRgTyhR6> - post on right hand side, at front of footway

Except for parked vehicles, good visibility to both west and east, but maybe too close to the roundabout.
