SIDs DATA	
PC 047/08/26	Members noted the SID Data report. Officers informed Members that SID data was currently being downloaded on a fortnightly basis from each device location. As Planning Committee meetings take place every three weeks, this would result in some meetings having no SID data available for consideration. Members agreed with this approach.
SIDS DEVICE POSITIONING LIST	
PC 048/08/26	Members noted the latest Device Positioning List .
QUESTIONS FOR OTHER AUTHORITIES	
PC 049/08/26	The following concerns were raised for Test Valley Borough Council (TVBC): • Officers were requested to investigate reported access issues with the TVBC Planning Portal, including the portal closing at midnight and users being unable to open further documents after viewing approximately ten documents. • Responses from various consulting parties are often received too late for planning application considerations.
