

It is acknowledged that there are different types of risk present which affect the council's ability to perform its objectives. In accordance with the Governance and Accountability for smaller authorities in England, and the Practitioners Guide dated March 2022, the council have set out a scheme for the management of all risk.

1. **IDENTIFICATION.** - Risks that have been identified for the Council are:

Financial	Loss or theft of money or income
Security	Fraud, theft
Property	Damage to property
Legal	Breaking the law or being sued
IT	Failure of IT system or mis-use
Reputational	Any action that could be taken which would harm the authority's public reputation

2. **ASSESSING THE RISK.** - A matrix is used to identify assess the risk. All our risk assessment templates use the below methodology.

Hazard Severity (Impact)			Likelihood of Occurrence (Odds)		
1	Nil	Trivial or insignificant harm to persons, property or business activities	1	Not likely	There is no real likelihood of it occurring.
2	Slight	Causing minor harm allowing work / activities to continue	2	Possible	Possible occurrence, but potential is minimal.
3	Moderate	More Serious, capable of resulting in 3 or more days off work for one or more individuals, or property damage resulting in a temporary interruption to business activities with some financial loss.	3	Quite Possible	Incident will only happen if several factors are present.
4	High	Possible fatality or serious injury to an individual. Longer term interruption to business and/or high financial costs.	4	Likely	Regular incidents occur, but no injury. May result in injury with additional factors introduced.
5	Very High	Multiple fatality and/or destruction to work environment. Long term or permanent business interruption and/or very high financial costs.	5	Very Likely	Almost 100% certainty that an incident will occur, or it is a common occurrence.

A risk factor can be found using the equation, ranging from 1 (no severity and unlikely to happen) to 25 (just waiting to happen with potentially disastrous results). However, it is important to judge both the severity and the likelihood independently. Having identified the numerical risk factor, the 'risk matrix' will help determine the urgency of the action.

RISK ASSESSMENT MATRIX.

Likelihood (ODDS)	Hazard Severity (IMPACT)					1-5	Low Risk	Tolerable	Little or no action required
	1	2	3	4	5				
2	4	6	8	10	6-9	Medium Risk	Unacceptable	Some action required and monitor during event.	
3	6	9	12	15					
4	8	12	16	20	10- 25	High Risk	Unacceptable	Urgent action required. Stop process. Compensatory measures / new procedures must be put in place within 24hrs. Resolving the issue may take longer, but must be in hand. (People may need to be removed from the risk whilst it is assessed.)	
5	10	15	20	25					

3. **ADDRESSING THE RISK.** Once a risk has been identified, there are four courses of action that can be followed:

Tolerate the risk	<ol style="list-style-type: none"> Where risk is low or can be contained by a simple contingency plans Where controls are not proportional to the risk Where risk is unavoidable. (Terrorism.) Where the activity is important to the community and risk can be accepted
Treat the risk	<ol style="list-style-type: none"> Introduce controls or procedures Delegate to staff Implement councillor scrutiny Setting up prevention techniques
Transfer the risk	<ol style="list-style-type: none"> Buying in service from a specialist Sub contract Take professional advice Taking insurance to cover the risk
Terminate the risk	<ol style="list-style-type: none"> Stopping the activity or not starting where the risk is intolerable.

4. **REPORTING THE RISK.** Once actions have been decided they must be documented, as this allows for future reviews.

Risks that have been identified as being applicable to ANDOVER TOWN COUNCIL are listed below. Councillors and the public are asked to let the Clerk know if they become aware of any other situation that should be considered.
